

UNI-CLEAN SKY wc & tank cleaner

Cleaning liquid for toilets and chemical toilets.

Odour- and dirt-reducing cleaning agent for closed waste systems.

PRODUCT DESCRIPTION

Uni-Clean WC & Tank Cleaner is an effective cleaning agent that cleans and leaves a fresh fragrance in toilets and washrooms. It cleans surfaces and tanks, removes and prevents deposits, and dissolves organic waste and paper. Through effective cleaning, it reduces unwanted odours and provides a long-lasting fragrance.

The product is intended for cleaning all types of toilets and chemical toilets in both domestic and professional settings. Applications include homes, workplaces, aircraft, buses, motorhomes, caravans, campsites, portable toilets, dry toilets and similar closed waste systems, where it is used as a cleaning agent.

Uni-Clean WC & Tank Cleaner is a highly concentrated cleaning agent for effective toilet cleaning. The product is not flammable at any concentration. It contains ingredients that contribute to effective cleaning and a pleasant fragrance. The product retains its freshness and characteristic blue colour throughout use.

USE AND DOSAGE

Toilet bowl

Use undiluted. Brush if necessary and flush afterwards.

Bus, motorhome / smaller toilet tank (10 L)

Mix 100 ml of product with 3–4 litres of water.

Aircraft toilet tank

Dilute 1:200 (1 part product + 199 parts water).
